

Sharing EuroBioBlitz : Newsletter and Social media

Newsletter text -If you have a newsletter, please share this text in your next newsletter to help us spread the word. If you would like to use a photo/image, you can find one [here](#). There are **2 versions of the newsletter**, to fit either 150 and 250 word limits:

247 word newsletter:

The EuroBioBlitz is back!

EuroBioBlitz is a Europe-wide wildlife recording event taking place on the 29th and 30th of September 2023. Anyone across the continent can support ecological research by uploading photos of their local wildlife to the iNaturalist app.

How to take part: You can take part as an individual, by simply uploading photos of your local wildlife that you see on the 29th and 30th of September to the free iNaturalist app. Alternatively, you could go that one step further by organising a walk to help your local community, friends or colleagues to discover the wildlife that's on their doorstep. To receive free information, guidance, and resources to help you along the way, head to www.bnhc.org.uk/eurobioblitz-2023 where the Natural History Consortium will be able to support you to run your own mini wildlife-recording event during EuroBioBlitz 2023. This could range from a 20-min walk using the iNaturalist app to record the wildlife that you see around your workplace, to a full-day BioBlitz event with activities like pond-dipping and expert-led guided walks – you decide!

Resources for EuroBioBlitz are available in English, Spanish, French, Polish, Portuguese, Italian, German, and Swedish.

Who is organising EuroBioBlitz 2023? The #EuroBioBlitz2023 is organised by The Natural History Consortium (based in the West of England, UK) as part of [INTERSECTIONS](#); an initiative focused on supporting researchers across Europe. In partnership with Berlin School of Public Engagement and Open Science and the Global Science Show, supported by UKRI.

EuroBioBlitz 2023

EuroBioBlitz is a Europe-wide wildlife recording event taking place on the 29th and 30th of September. Anyone across the continent can contribute to ecological research by uploading photos of their local wildlife to the iNaturalist app.

You can take part as an individual, or you could organise a walk to help your local community, friends or workplace discover the wildlife that's on their doorstep. To receive free information, guidance, and resources to help you along the way, head to www.bnhc.org.uk/eurobioblitz-2023.

Resources for EuroBioBlitz are available in English, Spanish, French, Polish, Portuguese, Italian, German, and Swedish.

The #EuroBioBlitz023 is organised by The Natural History Consortium (based in the West of England, UK) as part of [INTERSECTIONS](#) - a collaborative initiative focused on supporting researchers across Europe. In partnership with Berlin School of Public Engagement and Open Science and the Global Science Show, supported by UKRI.

Social media

If you know of an organisation or individual who would like to run an event please share this information with them, or help us spread the word by sharing one of these posts on your social media:

TWEET - [BioBlitz post](#)

FACEBOOK POST- [Bioblitz Post](#)

INSTAGRAM POST- [Bioblitz Post](#)

LINKEDIN POST - [Bioblitz Post](#)

Or share your own post on social media (If you would like to use a photo/image, you can find one [here](#))

Suggested wording for social media:

Take part in #EuroBioBlitz2023 this September 29 - 30 to join other citizen scientists across Europe in recording their local wildlife.

You can take part as an individual, or you could organise a walk to help your local community, friends or workplace discover the wildlife that's on their doorstep. To receive free information, guidance, and resources to help you along the way, head to www.bnhc.org.uk/eurobioblitz-2023.
